

Amendments to the Specification:

Please delete the following paragraph (which was added in the August 2, 2004 Examiner's Amendment) beginning at Page 1, after the title:

"This application is a national stage application filed under 35 USC 371 of PCT/JP/03965, filed June 16, 2000."

The paragraph on page 18, line 5, has been amended as follows:

--The amount of cyclodextrin component in the present compositions should be effective to perform the desired function or functions in the present composition and/or perform the desired function or functions after administration to a human or animal. The amount of cyclodextrin component preferably is sufficient to complex at least in a major amount, and more preferably substantially all, of the active component in the present composition. In one useful embodiment, the amount of cyclodextrin component in the present composition is in the range of about 0.1% to about 30% (w/v) or more of the composition.--

The paragraph beginning of page 18, line 36, has been amended as follows:

--Also, the present compositions may be formulated to be useful in performing two or more contact lens care operations. For example, for contact lens care, a preserved disinfecting/cleaning composition, or a preserved ~~cleaning/conditioning~~ cleaning/conditioning composition or even

an all-purpose lens care composition may be formulated and such multi-functional compositions are included within the scope of the present invention.--

The paragraph on page 21, line 16, has been amended as follows:

--This composition is formulated as and is effective as a ~~compositon~~ composition for the treatment of dry eye.--
